Produktinformationen "CP-AOCH"

The CP-AOCH is an Active Optical HDMI cable designed for long distance AV installations that demand the highest signal integrity. It supports 4K@60Hz (4:2:0) and 4K@30Hz (4:4:4) up to 100m (328ft) and is thinner, lighter and more flexible than copper or even standard optical cables, making it easier to install. This award winning cable includes transparent EDID and HDCP support with no signal attenuation. The CP-AOCH reduces the risk of EMI and RFI interference.
