Produktinformationen "BC-HDTP"

Kramer's BC-HDTP is an unshielded twisted pair (UTP) type cable designed for use in the most demanding long distance video transmission over CAT 5/5e twisted pair cable applications, and is an ideal companion to Kramer's Cobra™ twisted pair series transmitter/receiver sets. BC-HDTP resembles typical CAT 5/5e cable, but with internal components optimized for transmission of video/audio signals rather than high-speed data.
