Produktinformationen "BCLS-31"

Kramer's BCLS-31 is a high-performance CAT6A U/UTP cable designed for IT, LAN and Ethernet installations. It is constructed with four pairs of 23AWG solid bare copper conductors with a cross filler in an LSZH jacket with internal rip cord and sequential markings every meter and packed on a fumigated plywood reel. The unique zigzag jacket design provides excellent performance of "six around one" bundle transmission. BCLS-31 cable exceeds CAT 6A specifications to provide additional performance and bandwidth beyond the basic standard.
