### Produktinformationen "MTX3-88-PR-PRO"

8x8 4K60 All in one Hybrid Presentation Matrix

- Premium All-in-one Matrix High-resolution scaling matrix with multi-signal routing of wired and wireless user interfaces.
- Dual-screen USB-C routing capability allowing to connect any Alt-mode DP capable laptop with an extended desktop to be displayed on any selected pair of outputs.
- Eight HDBaseT 3.0 extension ports with PoE remote device powering. Each HDBaseT 3.0 port has configurable direction (input or output) and can extend multi-signals over twisted-pair copper infrastructures for un-matched system flexibility.
- Advance video processing capabilities with several Multiview presentation layouts and two independent video wall presentations.
- Rich set of audio interface options including analog (line, microphone and speaker), Dante and USB audio devices.
- A sophisticated audio DSP configured by an intuitive graphic dash-board style user interface. The audio DSP allows mixing, condensing, expanding, noise filtering and echo cancelling to ensure echo-free, noise-free, and crystal-clear sound distribution.
- Fast <1sec AV Routing Clean and instantaneous routing between matrix inputs and outputs, with smooth and uninterrupted transition between presented content on local and remote displays.
- Hybrid-meeting Collaborative Sessions Controllable multi-signals routing of both AV and USB host inputs. AV and USB routing may be performed independently or in USB-follow-AV mode.
- Six local USB device ports divisible into two groups for enhanced host - device USB routing flexibility.
- 60W charging for USB-C connected devices.
- High-Performance Scaling Experience Built-in ProcAmp & high-resolution scaling technology for optimal up- or down image scaling.
- Open Standard Streaming and Recording Session content sharing and recording via the popular H264/5 open streaming standard over IT Lan and WAN networks.
- Room Control Includes gateways and a rich set of relays, RS-232 and GPIOs to reduce the systems complexity offering the end-user a smooth and sophisticated room control experience.
- Standard Enterprise-Grade Secured Operation Standard IT-grade authentication for secured IT LAN connectivity, and secured web-UI browsing and communication, with OWASP-10 (Open Web Application Security Project) standard penetration protection certification.
- Comprehensive Management Local panel buttons operation, remote and secured management via integrated user-friendly web-UI server, and remote via IP-driven API control and management communication, for flexible service options and ensure lasting, field proven deployment.
- Produktabmessung: 19 x 9.33 x 3U (43.6cm x 23.70cm x 13.25cm) W, D, H
- Versandabmessung: 58.00cm x 49.30cm x 26.20cm (22.83 x 19.41 x 10.31 ) W, D, H
- Produktgewicht: 10.7kg (23.6lbs) approx.
- Versandgewicht: 14.6kg (32.1lbs) approx.
