Produktinformationen "DA3-18-H"

1:8 4K HDR HDMI DA

- Max. Resolution 4K@60Hz (4:4:4).
- Intelligent EDID Handling Use connected display EDID, an uploaded EDID or a default EDID, with RGB-force options, to ensure proper operation of HDMI source and display systems.
- Force RGB The user can force native delivery of the HDMI content in RGB color format to improve picture quality or when the display lacks YCbCr capabilities.
- Selectable HDCP Authorization Allows the user to control whether the input supports HDCP encryption. HDCP protected content is not passed in non-HDCP mode.
- Smart Output Scaling Automatically downscales 4K sources to 1080p for displays that do not support 4K, ensuring compatibility and optimal viewing on all connected screens.
- Sophisticated CEC mediator with flexible routing options with an ability to control each output individually.
- Independent CEC on/off per each output
- Integrated gateway for RS-232 and CEC commands originated from any controller
- Easy Installation Compact half-19" 1RU enclosure, suitable for over-ceiling mounting, or side-by-side rack mounting.
- Produktabmessung: 21.46cm x 16.30cm x 4.36cm (8.45 x 6.42 x 1.72) W, D, H
