Produktinformationen "RR-C-GM"

Ideal for educational and institutional installations, this flying lead is commonly used on the display (projector) end of classroom setups with the corresponding wall plate used at the teacher's station. Note: Each complete RapidRun Multi-Format solution requires a break-away flying lead or wall plate to terminate each end of the runner cable. Each runner requires two break-away flying leads, two wall plates, or one break-away flying lead and one wall plate.
