Produktinformationen "C-IRR/HDR4F-KIT"

Kramer's IR Receiver Cable Kit is an internal cable that connects between the IR on-board circuit and an external IR receiver. Once connected, the Kramer machine can be controlled from a distance using the included 15m (50ft) IR Receiver cable. This distance can be further extended up to 60m (200ft) by using four Kramer C-AS35M/AS35F-50 stereo cables of 15m each (50ft).
